Education

CHANDIGARH UNIVERSITY

Bachelor of Engineering – Computer Science And Engineering CGPA: 7.63/10

July 2022 – May 2026

Mohali, Punjab

PC High School

Intermediate Percentage:64%

2019 – 2020

Samastipur, Bihar

Vikas Vidyalaya

Matriculation Percentage:86.4%

2017 – 2018

Begusarai, Bihar

Profile Summary

- Proficient in designing, developing, and deploying scalable software solutions using programming languages.
- Familiar with core concepts in HTML, CSS3 and JavaScript.
- Knowledgeable in Python, Java for automation, code-translation and optimizing complex systems.
- Knowledgeable in database management systems such as MySQL and applying data modeling techniques.
- Strong interpersonal communication and documentation skills, ensuring effective collaboration within teams.

Projects

Vmail

- Designed an email system leveraging assistive technologies to enhance usability for visually impaired users.
- Successfully published a research paper detailing the solution at the IEEE 3rd International Conference.
- **Tech Stack:** Python, HTML, CSS, JavaScript

Meal Recommender and Planner

- Created a website on an existing dataset of nutrient values for a healthy diet that plans meals according to user's needs along with recipes.
- Implemented real-time nutritional analysis using machine learning, increasing meal accuracy by 30%.
- **Tech Stack:** Python, MySQL, Machine Learning

Shop-cart keeper

- Developed Shop-Cart Keeper, a Java-based shopping cart management application to handle product listings, cart operations, and order processing.
- Implemented Object-Oriented Programming (OOP) principles to design modular and maintainable code.
- Built backend logic using Core Java, JDBC, and MySQL for efficient product and cart data management.

Technical Skills

- **Programming:** Java, C++,Python
- **Core Competencies:** Data Structures and Algorithm, OOPS,Computer Networks, RDBMS (MySQL)
- **Web Development:** HTML, CSS, JavaScript, Node.js, React.js
- **Framework:** Hibernate
- **Other Skills:** Data Modeling, CI/CD Pipelines, System Design

Achievements

- Published a research paper integrating Cyber-Physical Systems (CPS) for smart cities, leveraging IoT, real-time data analytics, and intelligent sensors to optimize urban infrastructure, resource management, and citizen services.
- Appointed as Class Representative from 5th Semester, which enhanced the team coordination and conflict resolution abilities, while fostering effective communication and accountability within the group.

Certifications

- Secured 84% in Cloud Computing certification and recognized as ELITE SILVER by SWAYAM NPTEL taught by IIT Kharagpur.
- Certification in Java FullStack Developer by Coursera
- Certification in Computer Architecture by SWAYAM NPTEL taught by IIT Guwahati.
